PROJECTS

Doodle's Garden

(Personal project)

Developed a responsive restaurant website using React.js and Tailwind CSS with modern UI/UX design. Implemented parallax scrolling effects and Embla Carousel for interactive and visually engaging user experience, including featured dishes, menu sections, and responsive layouts.

Skillnest

(Personal Project - still developing)

Developing a responsive Learning Management System (LMS) website using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB. Implemented user authentication features including login, signup, OTP verification, and reset password functionality. Built responsive UI components and course-related features focused on performance and user experience.

Spaceaura

(Personal Project)

Developed a modern and responsive landing page using Vue.js and Tailwind CSS with smooth animations and interactive UI components. Built visually engaging sections with responsive layouts while focusing on clean design and frontend performance.

Impact Sapiens

(Client's)

Developed and customized a client website from scratch using WordPress, Elementor, Astra Theme, and custom styling. Built responsive layouts and interactive sections while focusing on clean UI, performance, and user experience.

Wonderz Travel

(Client's)

Customized a WordPress landing page template for a travel website by modifying the design, layouts, and color theme according to client requirements. Used Elementor, Astra Theme, and plugins to create a responsive and visually appealing user experience.
